TURQUIE/TURKEY

Ouvrages / books

- Russel Power, 2016, *Shari`a in the Secular State*, Routledge: New York.
The study begins by providing a historical framework for the ideas and terms covered, including concepts of religion in general, *Shari`a* in particular, and secularism in the Turkish state. It goes on to examine empirical research to describe and analyze contemporary Turkish understandings of religion and *Shari`a*. The author's research indicates that there is often a disconnect between supporting the adoption of *Shari`a* and supporting the regulation of everyday behavior through civil codes. Thus, "*Shari`a*" seems to have taken on new meanings as groups have sought either to appropriate or criticize it. It is a quintessential example of fractured and contextual meaning at the center of both religious and legal traditions.
- Caroline Tee, 2016, *The Gülen Movement in Turkey*, IB Tauris: London
The Gülen, or Hizmet, movement in Turkey is the country's most powerful and affluent religious organisation. Its central tenet, advanced by its founder, the charismatic Sunni preacher Fethullah Gülen (b. 1941), is that Muslims should engage positively with modernity. A prime means of advancing this philosophy has been education: at hundreds of Gülen-run schools and universities, not only in Turkey but also worldwide, instructors aim to cultivate the next generation of Muslim bankers, biologists, software engineers and entrepreneurs. But how does the Gülen movement resolve the sometimes conflicting positions of Sunni Islam and contemporary science – for example, on evolutionary theory? Drawing on sustained ethnographic research conducted among Gülen communities in Turkey, Caroline Tee analyses their complex attitudes towards secular modernity.

CANADA

Etabli à l'origine pour favoriser les travaux comparatifs et les échanges internationaux à l'époque d'une Union européenne à 15 pays, le réseau s'est progressivement ouvert à l'Europe élargie en incluant la Suisse, puis la Russie et la Turquie, tout en accueillant les nouveaux pays membres de l'UE. Compte tenu de l'influence importante de ce pays du point de vue du dialogue juridique et de l'intérêt des perspectives comparatives par rapport à plusieurs pays d'Europe, le Canada sera dorénavant pris en compte sur le site Eurel. Les articles concernant ce pays sont en cours de complétion et le pays devrait prochainement être rendu accessible.

Initially established to facilitate comparative approaches and international exchanges at the time of a 15 members European Union, the network gradually opened to an enlarged Europe with Switzerland, Russia, and Turkey, while including new EU members. Given the important influence of this country for the legal dialogue, and the interest of comparative perspectives for many European countries, Canada will be included in the Eurel website. Articles concerning the country are currently being written and it should soon be available on the website.
