- On October 6th, 2020, with the the opening of the new parliamentary year 2020-2021, the Social Democrat minority government has announced its legislative agenda for the next year. For the Ministry of Ecclesiastical Affairs, this includes a proposal for an 'Act on sermons in languages other than Danish.' The purpose of the bill is to create greater openness about the religious preachers in Denmark speaking up in languages other than Danish. For the Ministry of Aliens and Integration, it includes an 'Amendment of the Penal Code, the Passport Act and the Aliens Act' in order to strengthen the efforts against negative social control. The Ministry suggests adding an explicit reference to negative social control in the provision of the Penal Code on psychological violence, and to show that negative social control is present in some religious divorce contracts in the form of retention in a marriage. Also, it proposes to ban religious marriages of minors and tighten penalties and deportation rules for those who detain a person in a forced marriage. Finally, the Ministry will propose a ban on receiving donations from organizations which appear on a list of undemocratic organizations. This bill had already been proposed in 2019/2020, but was not discussed because of the lock-down due to Corona.
